

Canvas® and TurningPoint

The integration with Canvas® allows for Turning Technologies users to leverage response devices in class to easily collect student achievement data. Very simply one can import a participant list of students from Canvas into TurningPoint and then export assessment data into Canvas.

This document covers the following topics:

Downloading a Course from LMS

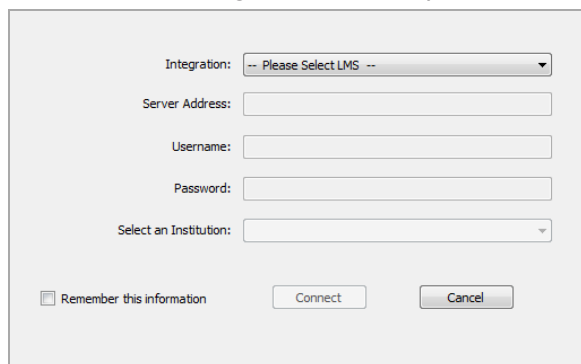

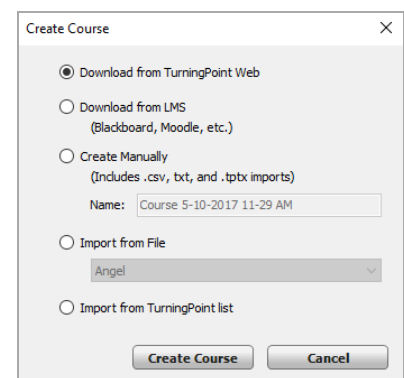

Using a Canvas Course in TurningPoint

Updating an LMS Course (Course Overview)

Exporting a Session to Canvas

Downloading a Course from LMS

- 1 Open TurningPoint and sign in to your account.
- 2 Select the **Manage** tab.
- 3 Click the **Course** drop-down menu and select **New**.
The *Create Course* window opens.
- 4 Select the **Download from LMS** radio button and click **Create List**.
The *Connect to Integration* window opens.

A screenshot of the 'Connect to Integration' window. It features a form with the following fields: 'Integration' (a dropdown menu showing '-- Please Select LMS --'), 'Server Address' (a text input field), 'Username' (a text input field), 'Password' (a text input field), and 'Select an Institution' (a dropdown menu). At the bottom left is a checkbox labeled 'Remember this information'. At the bottom right are two buttons: 'Connect' and 'Cancel'.A screenshot of the 'Create Course' window. It has a title bar with a close button. The window contains several radio buttons: 'Download from TurningPoint Web' (selected), 'Download from LMS (Blackboard, Moodle, etc.)', 'Create Manually (Includes .csv, txt, and .tpix imports)', 'Import from File', and 'Import from TurningPoint list'. Below the 'Create Manually' option is a text input field with the value 'Course 5-10-2017 11-29 AM'. Below the 'Import from File' option is a dropdown menu showing 'Angel'. At the bottom are two buttons: 'Create Course' and 'Cancel'.

- 5 Select the appropriate **Integration** from the *Integration* drop-down menu.
- 6 Enter the **Server Address**, **Username** and **Password** in the appropriate fields.
- 7 Click **Connect**.
Optionally, click **Remember this information** to have the Integration, Server Address and User Name stored for future use.
- 8 If applicable, select the **Institution** from the *Select an Institution* drop-down menu.
The *Import Course* window opens.
- 9 Select the **course or courses** to import. Optionally, select the **Select All** checkbox to import all courses.
- 10 Click **Import**.
A confirmation box is displayed.
- 11 Click **OK**.
The course is added to the left panel of the *Course Overview* screen.

- 12 Select the **course** to view the participant information.

TIP

The imported **course** contains the following information: Device ID(s), Subscription Status, First Name, Last Name, User ID and Email.

Using a Canvas Course in TurningPoint

A course from Canvas can be loaded into TurningPoint to track participant results.

- 1 Open TurningPoint and sign in to your account.
- 2 From the Polling tab, select the **course** and the **polling environment**.

WARNING

A Canvas course must be loaded prior to running a session.

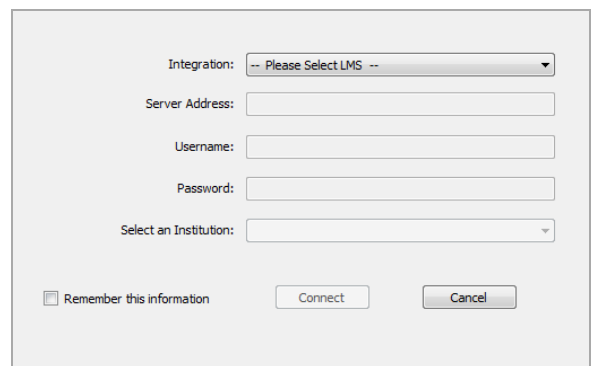

- 3 **Run** and **save** the session.
- 4 Close the polling environment to return to the TurningPoint dashboard.

Updating an LMS Course (Course Overview)

TurningPoint can update course information from an LMS.

An LMS integration must be configured on an LMS server. Confirm with your IT department that the integration is properly setup before attempting to use the TurningPoint integration.

- 1 Open TurningPoint and sign in to your account.
- 2 Select the **Manage** tab.
- 3 Click **Update** from the *Course Overview*.
The *Connect to Integration* window opens.
- 4 Select the **Integration** from the *Integration* drop-down menu.
- 5 Enter the **Server Address**, **Username** and **Password**.
- 6 If applicable, select an **Institution** from the *Select an Institution* drop-down menu.
- 7 Click **Connect**.
Optionally, click **Remember this information** to have the LMS, Server Address and User Name stored for future use.
The *Update with Integration* window opens.

NOTE

If the participant list includes unlicensed or unregistered participants a notification will appear. Grades will not be able to be exported until the participants are registered and/or they have obtained a license.

- 8 Select **Update Participant List** and click **Update List**.
- 9 Click **OK** at the prompt.

Exporting a Session to Canvas

Sessions can be exported to Canvas via Results Manager.

- 1 Open TurningPoint and sign in to your account.
- 2 Select the **Manage** tab.
- 3 Select the course and click **Results Manager**.

IMPORTANT

A account license is mandatory. If a participant does not purchase a account license, his or her score will show as an asterisk in all TurningPoint participant reports. Furthermore, his or her score will export as "0" to an Excel workbook and will not be exported to an LMS.

- 4 Click **Integrations**. The *Connect to Integration* window is displayed.
- 5 Select **Canvas** from the *Integration* drop-down menu and enter the **Server Address** in the box provided. The Server Address is the URL of the registration link normally residing in the course's **Modules** section.

NOTE

Depending on your institution's application protocol, enter **http://** OR **https://** before the URL.

- 6 Click **Connect**.
- 7 Enter your Canvas **Username** and **Password** and click **Login**.
The *Update with Integration* window is displayed.
- 8 Select **Export Session(s)**.
- 9 Select the **column(s)** to be exported and click **Export**.
Optionally, select the **Active Participants Only** option to include only participants who responded to at least one question within the session.
The *Export to Integration* window is displayed.
- 10 Click **Export**.

Next Steps

Log in to your Canvas account to view the exported results data.
